

5th Annual Spring Outreach

UCSB

Dates:

April 15-

April 16, 2010

SACNAS: ADVANCING HISPANICS/CHICANOS & NATIVE AMERICANS IN SCIENCE

The mission of the **Society for Advancing Hispanics/Chicanos and Native Americans in Science (SACNAS)** is to encourage **Chicano/Latino** and **Native American** students to pursue undergraduate and graduate education, and obtain the advanced degrees necessary for science research, leadership, and teaching careers at all levels. For over 30 years, SACNAS has provided strong national leadership in improving and expanding opportunities for minorities in the scientific workforce and academia, as well as mentoring college students within science, mathematics and engineering.

- As a campus organization, one of our goals is to extend the support and resources available to us to the incoming freshman and transfer students, and promote UCSB and SACNAS to high school students of all levels. We do so through our Annual Outreach and Mentoring Program. This year it will take place from **APRIL 15** starting with the introductory ceremony at 6 PM, and ending with a closing ceremony on **APRIL 16** at 7 PM. **It will not cost anything** to the applicants.
- For the past four years we have invited local high school students interested in STEM majors to our Outreach. This event was sponsored in part by the UCSB-SACNAS organization, the CNSI department, the Expanding Pathways to Science Engineering and Mathematics (EPSEM) Program, and the National Science Foundation (NSF).
- The activities will consist of a campus tour, mentoring, meals, team-work activities, the dorm overnight experience, and informational speakers including: Faculty, Financial Aid, Educational Opportunity Program (EOP), Counseling and Career Services, Student housing and CLAS, to create awareness of campus resources available to UCSB students. Finally, there will be a raffle with prizes.

Those who are college bound and in good academic standing are encouraged to come!

SACNAS OFFICERS
